

Medical Terminology

Having difficulty remembering the meanings and pronunciations of necessary medical terms? To speak the language of health care, it helps to know the basics of medical terminology. This unique, effective program is designed to help you tackle 11,000+ medical terms in only 16 hours utilizing a blended approach of teaching methodologies to include audiovisual presentations and instructor led classes. Take the mystery out of medical terms without any prior knowledge of the subject matter and be on your way to better communicate with other health care professionals.

Purpose: To provide a basic knowledge of the language of medicine and an understanding of how complex medical terms are formed. To learn meanings of 350 Latin and Greek elements or word parts which will enable you to interpret and understand 11,000+ complex medical terms

Who should attend: office staff and anyone with an interest in learning medical terminology

When: Class will meet on Tuesdays
January 19 – March 16 (no class March 2)
5:30 pm – 7:30 pm

Where: Coro Building, Room 183, Providence, RI

Fee: \$125.00 per person for staff of PSO members
\$150.00 for non-PSO

Cancellation Policy: Full refund will be given if written notice of cancellation is given two weeks prior to the first class.

Instructor: Jeanette Diez

Jeanette Diez has been with Lifespan for over 24 years. In her role of Technical Training Specialist for Lifespan Learning Institute, she is primarily responsible for facilitating computer classes and Medical Terminology. What Jeanette enjoys most about her work is helping staff members increase their knowledge and proficiency levels through her contributions.

Registration: Contact Cathy St. Laurent at 444-2095 or via email at cstlaurent1@lifespan.org by January 11th, 2010. Late registrations may be accepted if space is available; minimum participation needed.
